Mrs. Cozette Gray

La Canada, CA 91011

Dear Mrs. Gray:

It was called to my attention that you have been wondering why your husband did not get credit for animating the Huntsman in *Snow White and the Seven Dwarfs*. In checking the records on the film, I find that Errol Gray animated 11.19 feet of the Huntsman, but Ham Luske animated 37.39 feet of the character. Your husband did the first three scenes and Ham did the rest. Film credit is based on the amount of footage animated in a film.

If you have notes showing that your husband developed the character, we would be pleased to have copies to enhance our historical record.

We appreciate your interest, and assure you that your husband's work is not forgotten.

Sincerely yours,

David R. Smith
Archivist
